

High

Alina Baraz

I breathe you in
You are taking over
Got me open
Losing my composure You know that I love it when
When you say my name
Pull me closer into you
Tell me that you'll stay
Take me deep into your mind
We can get away
We can get away You've got me so high
High, high
You've got me so high
High, high
I follow your lead
You know that I want you
What do you need
You know that I got you You know that I love it when
When you hold me close
Place your hand right into mine
Say you'll never go
Take me deep into your mind
We can take it slow
We can take it slow You got me so high
High, high
You got me so high
High, high
Got me so high, cannot breathe now
Got me so high, cannot breathe now
Got me so high, cannot breathe now
Got me You got me so high
High, high
You got me so high
High, high You got me so high
High, high
You got me so high
High, high You got me so high
High, high
You got me so high
High, high
