

Born To Get Wild (feat. will.i.am)

Steve Aoki

We were born, we were born to get wildHey
Turn up the sound
And bring it loud so that everyone comes around
Get's wild, get's wild, get's wildCause we're getting crazy
We're burning down the town
We burn it down so that everyone comes around
Get's wild, get's wild, get's wild
Wild, wild, wildWe were born, we were born to get wild
We were born, we were born to get wild
We were born, we were born to get wild
We were born born born
We were born to get wild
We were born, we were born to get wildI came with my people, my people
So we can get crazy and get in some shit
I can't make a loop, get stupid, call cupid
'Cause I want love me your chick
I can't make a dizzy, get tipsy, who wouldn't
Hey babe, co-come take a sip
Just sit with some baga, some baga
Some baga, some baga
Until you fall asleepAs soon as I step in the scene
Others brothers say "ah ah"
My status is fucking supreme
So fresh and so clean
Wow, wow
I'm feeling like I am the king of the club
'Cause all sneezers love my style
I'm up in this moher, this mother
I'm up in this bitch, get wild
Turn up the sound
And bring it loud so that everyone comes around
Get's wild, get's wild, get's wildCause we're getting crazy
We're burning down the town
We burn it down so that everyone comes around
Get's wild, get's wild, get's wild
Wild, wild, wildWe were born, we were born to get wild
We were born, we were born to get wild
We were born, we were born to get wild
We were born born born
We were born to get wildWe were born, we were born to get wild
